ADDITIONAL VALUE

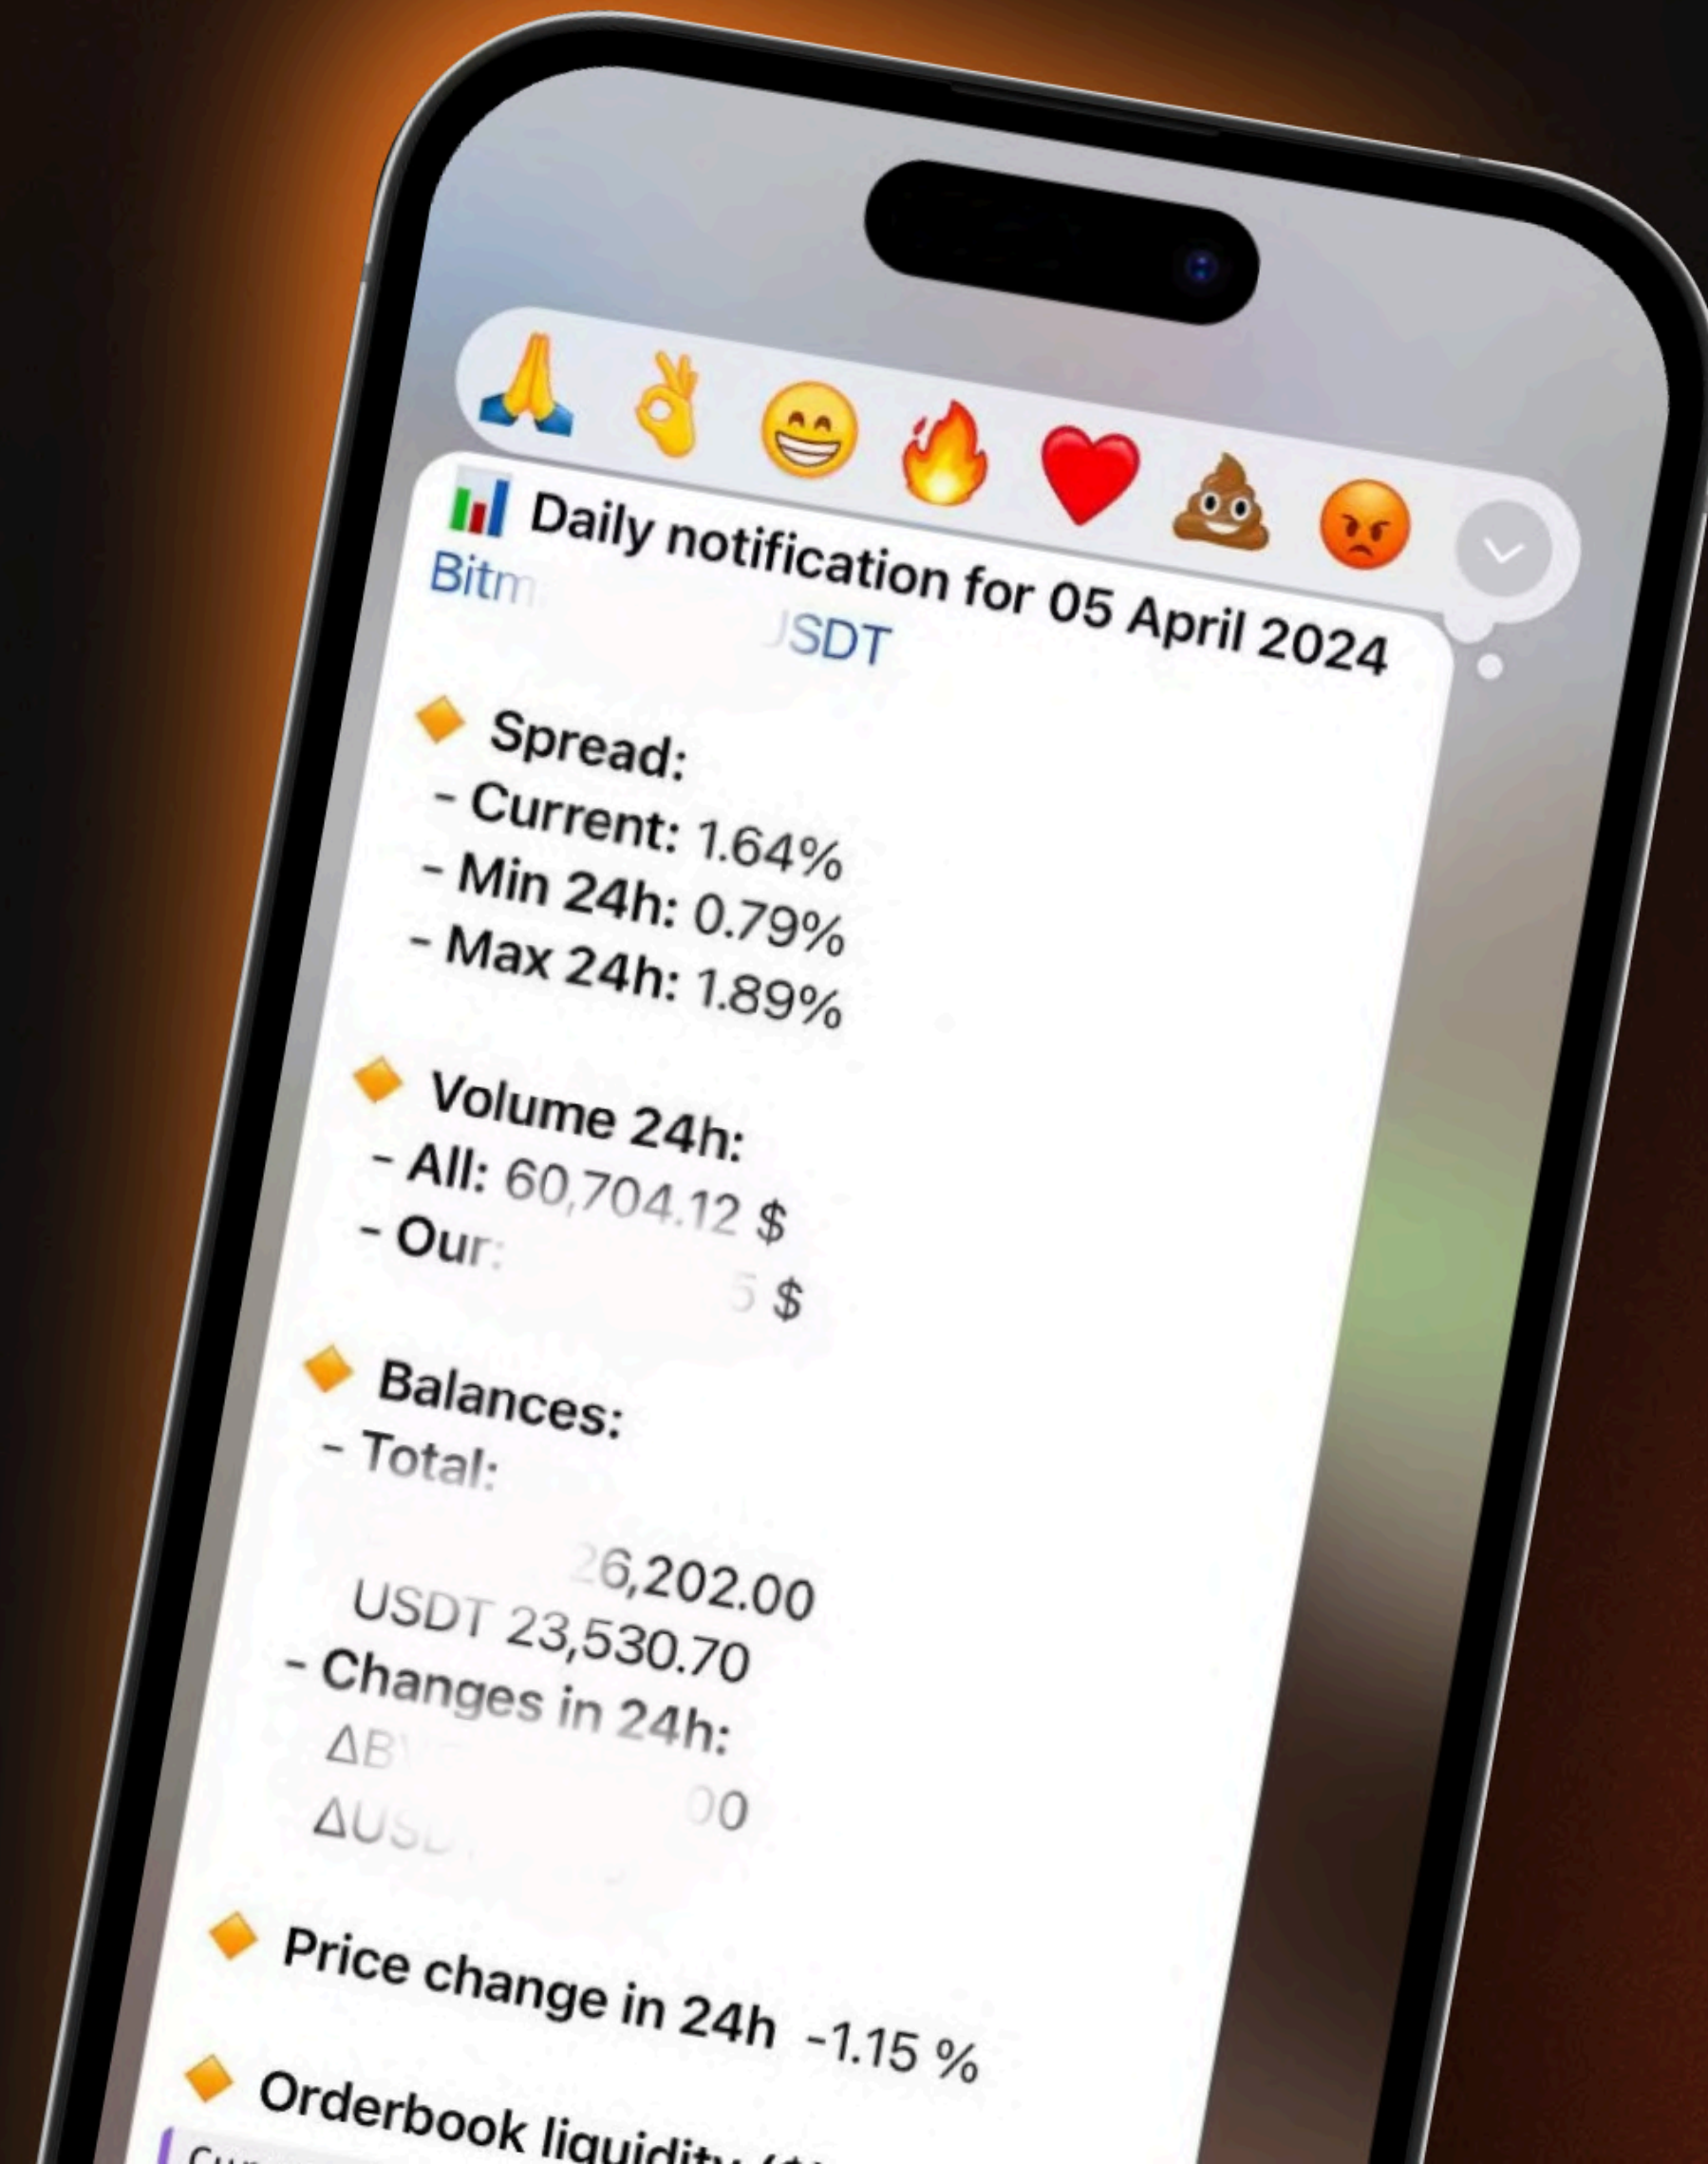

With our suite of value-added services, we elevate your experience in the blockchain industry, providing not just support, but a guiding hand through every step of your journey

BEST SERVICE

Introducing our cutting-edge Telegram bot, designed to deliver unparalleled service and convenience. With automatic updates on market trends, statistics, and more, staying informed has never been easier

DASHBOARD ACCESS

Also we offering access to our updated dashboard where you can track your current balances on different exchanges, volumes, spreads and all the stats on your market

HOW WE WORK

Terms

AnoGem starts work within 48 hours of payment receipt, including API keys and funding. Our service covers all trading pairs within a single exchange, with no hidden costs or extra fees

Responsibilities

AnoGem takes full responsibility for safeguarding the allocated assets. In the event of Agreement termination, we will promptly return the Client's assets

Requirements

DEX

Funding must be provided to our wallet, which will then be distributed to multiple wallets by our team

CEX

We need API keys and sufficient funding (amount varies by exchange), with trading and view permissions only

WHY DO PROJECTS CHOOSE US AS THEIR MM?

 **Generate money**

 **Save money**

 **Find partners**

 **Save time**

 **Avoid mistakes**

Help with project building

We help projects with development, tokenomics, fundraising, advising, consulting, marketing, listings and much more

We help prevent delisting from CEX

We fulfill exchange requirements and also help projects avoid delisting or recover from the delisting zone

Connect with partners

We introduce projects that could collaborate. Our clients are beneficial to each other. This is a community

Markets are under control

We help projects generate profits and achieve sustainable growth. Focus on development and promotion, and forget the headaches of market control!

Expert assistance

We help avoid mistakes and preserve funds. For example, which marketing strategies are worth investing in and which exchanges are not worth listing on. We also help negotiate better terms with exchanges for our clients
